Re: Wits Enterprise referral for Services provided by DMSA towards the statistical analysis on Research Contracts

Wits Enterprise is mandated by the University of the Witwatersrand, Johannesburg to facilitate and manage contract research and consulting projects for and on behalf of the University and we are guided in this by the same high standards that are expected by any academic institution.

In this role we have had the pleasure of partnering with DMSA over the years on several projects to which the DMSA team have contributed their expertise in relation to data collection, including research surveys and statistical analysis. We have enjoyed a successful professional partnership.

Research projects on which we have partnered with DMSA include:

1. City of Johannesburg :-
Development of a framework to measure, monitor and evaluate food Security for the City of Johannesburg (March 2017 – July 2017)
DMSA services included the management of the data collection from households in 7 regions of the City of Johannesburg and the associated data analysis.
2. Tshikululu Social Investments NPC (on behalf of the FirstRand Foundation):-
Supporting entrepreneurs and equipping them for future success (Feb 2016 – June 2016)
DMSA services included: Questionnaire Design, Sampling Design, Data Capture and Statistical Analysis and interpretation.
3. Ithuba Lotto:-
DMSA Services include: Lottery Machine Randomness Testing (Statistical analysis and interpretation) (May 2016 to date)

It is in acknowledgement of this that Wits Enterprise is pleased to provide this Referral letter. Please feel free to contact us if you have any queries in this regard.

Dr Pamisha Pillay
Director: Research and Consulting Support Unit
